Description:

From Before her daughter, Leslie, then 16, was abducted four years ago, Lauren Lawton had been a lovely woman. But with no assailant or body ever recovered, she has devoted all her energy to trying to keep Leslie's case in the headlines while simultaneously not neglecting her younger daughter, Leah, now nearly 16 herself. In an apparent attempt to make a clean start, Lauren and Leah leave Santa Barbara and head to the fictional Oak Knoll, a high-end pastoral retreat in the foothills. How is it, though, that Ronald Ballencoa, the monster whom Lauren is convinced took and probably murdered her daughter, also now resides in Oak Knoll? Lauren's obsession with Ballencoa is well known to and mostly disregarded by law enforcement in many local jurisdictions, but new-on-the-scene Deputy Mendez doesn't dismiss Lauren's pleas and hopes to be the one to finally bring some closure to the fractured family. Mendez, a protégé of legendary profiler Vince Leone (star of many Hoag thrillers), teams up with the feisty Danni Tanner, the original detective on the case (sparks fly between these two). Hoag takes obvious pleasure in keeping her setting circa 1990, before DNA

technology had advanced to where it is today and before mobile communications rendered many otherwise tense situations easy-breezy. The setting and her consummate skill as a plotter add to plenty of old-school thrills that pack a punch and will leave fans breathless. HIGH-DEMAND BACKSTORY: Hoag is on a remarkable streak: since 1995, she has written 30 books, and all 30 have appeared on the New York Times best-seller list. Her publisher will be doing everything in their marketing power to ensure that the streak hits 31. --Mary Frances Wilkens --This text refers to the edition.
