Description:

As seen on Kim Kardashian's Instagram

Supporting STEAM education initiatives and the Maker Movement, the National Parenting Publication Award-winner *Maker Lab* includes 28 kid-safe projects and crafts that will get young inventors' wheels turning and make science pure fun.

Each step-by-step activity is appropriate for kids ages 8-12, and ranked easy, medium, or hard, with an estimated time frame for completion. Requiring only household materials, young makers can build an exploding volcano, race balloon rocket cars, construct a lemon battery, make sticky slime, and more. Photographs and facts carefully detail the "why" and "how" of each experiment using real-world examples to provide context so kids can gain a deeper understanding of the scientific principles applied.

With a foreword by Jack Andraka, a teen award-winning inventor, *Maker Lab* will help kids find their inner inventor and create winning projects for school projects, science fairs, and beyond.
