

Come join the discussion about the next 10 years

Fall AGU 2015

Town Hall

12:30-13:30, Wednesday 16 December, Moscone West room 2008

TH33A: CLIVAR- Climate and Ocean - the next 10 years of CLIVAR science as part of the World Climate Research Programme

Synopsis

The session targets climate and ocean researchers and practitioners at the early-, mid-career and senior levels. It will serve to inform about the new CLIVAR science plan and to provide a platform to hear and discuss your ideas on future science and implementation needs required to meet urgent climate research goals. Introductory presentations by members of the CLIVAR community will be followed by audience participation and discussion. It is intended that the town hall outcomes contribute to the preparation of the CLIVAR Science Plan that is to be launched at the CLIVAR Open Science Conference in Qingdao, China, September 2016 (See info@clivar2016.org).

Programme

12:30 – CLIVAR – A Key Component of the WCRP – David Carlson, Director, WCRP

12:40 - CLIVAR Science Plan –Lisa Goddard, IRI, Columbia Univ, USA

12:50 – US CLIVAR Activities and Plans– Robert Weller, Woods Hole Oceanographic Institute, USA

13:00 – New CLIVAR Climate Dynamics Panel – Shang-Ping Xie, Scripps Institute of Oceanography, UCSD, USA

13:05 – CLIVAR Research Focus on Planetary Heat Balance and Ocean Heat Storage – Kevin Trenberth, NCAR, USA

13:10 – Joint GEWEX/CLIVAR Monsoons Activities - Françoise Guichard, CNRM-GAME, France

13:15 – CLIVAR Open Science Conference- Martin Visbeck, GEOMAR, Germany

13:20 – Discussion

FREE LUNCH FOR THE FIRST 35 PARTICIPANTS
