

Lecturer in Meteorology (ATS763)

Vacancy Details

Summary

Location:	ENV - Sch of Environmental Sciences
Job Type:	Part-Time
Category:	Academic (ATR/ATS)
Closing Date:	05/04/2017
Date Posted:	03/31/2017
Reference:	ATS763

Description

Faculty of Science

School of Environmental Sciences

£32,004 - £38,183 per annum, pro rata

The University of East Anglia invites applications for a fixed-term Lecturer in Meteorology in the School of Environmental Sciences. Candidates should have expertise in meteorology and ideally in numerical modelling.

The successful applicant will contribute to honours-level undergraduate teaching on topics within meteorology and weather applications and, potentially, in numerical modelling of environmental processes (depending in part on their expertise). The teaching will be delivered through a mixture of lectures, practical exercises, dissertation supervision and a field course. You will be expected to take on some related administrative duties and will have the opportunity to develop some new teaching material.

You will be expected to have a PhD (or demonstrable expertise through publications and/or teaching) in Meteorology or a closely related science is required and applicants must also fulfil all essential elements of the person specification.

This part-time (0.5 FTE) post is available from 1 July 2017 for a fixed term period of 4 years, until 30 June 2021. Note this teaching post could be combined with a part-time research position, if the candidate has such research funding.

Closing date: 12 midnight on 4 May 2017.

The School is a Bronze Athena Swan Award holder, currently working towards Silver
