 - **Focused Patient Assessment tables** include actual questions to help you learn how to effectively phrase questions to patients as well as target physical assessment techniques.
 - **Evaluation boxes** bring everything together after nursing interventions have been implemented.
 - **Patient Teaching boxes** help you plan effective teaching by first identifying an outcome, then developing strategies on how to teach, and finally, implementing measures to evaluate learning.
 - **Care of the Older Adult boxes** highlight key aspects of nursing assessment and care for this growing population.

 - **NEW! QSEN scenarios** present a clinical situation followed by an open-ended question designed to help you understand and apply these core competencies.
