**Description:**

**Review** In this debut memoir, one man embarks on a nearly three-decade quest to find his biological family...Hill's prose is clear and straightforward throughout, marked by a methodological tone that reflects his careers in science and marketing. Seamlessly and descriptively, he folds a decades-long process into a comprehensible narrative. His years of meticulous note taking translate into an inspiring story about his dedicated search for the truth.

An engaging, page-turning memoir that thoughtfully puts together the pieces of a family puzzle. --  
**Kirkus Reviews**

Richard's story reads like a good mystery novel. He is methodical, creative, determined and unexpectedly funny. I couldn't put the book down.--**CeCe Moore, Blogger, Your Genetic Genealogist**

This book is what we used to refer to as a barn-burner! Gets ahold of you and just won't let you go!...a wonderfully executed masterpiece. Whether you are interested in genetic genealogy, adoption searches or just like a good heart-warming mystery, you'll love this book!--**Roberta Estes, Blogger, DNAeXplained**

"Finding Family" tells a gripping, inspirational story, but it also does more: It provides a genuinely useful self-help guide for adopted people, genealogists and anyone else who wants to explore their personal history.--**Adam Pertman, Executive Director, Evan B. Donaldson Adoption Institute and author of Adoption Nation.**

A fascinating new page-turner. [I was] completely unable to put it down... I highly recommend this book to anyone interested in genealogy, family secrets, genetic genealogy, or mystery in general. The book is a complete and entertaining saga from A to Z.--**Blaine Bettinger, Blogger, The Genetic Genealogist**

**About the Author** Richard Hill's groundbreaking use of genetic genealogy tests in adoption search was featured on the front page of *The Wall Street Journal*. In order to share his success secrets and tips with other adoptees and genealogists, Hill created an educational web site, **DNA-Testing-Adviser.com**, which makes genetic genealogy understandable to all.

He also provides specific test recommendations to those who contact him. As the unifying expert who bridges the fields of genetic genealogy and adoption search, he has become the go-to person for adoptees and others seeking to find lost relatives or confirm suspected relationships.

The author has a BS in physics, an MBA, and more than thirty years experience in marketing. Richard gives talks on DNA testing and serves on the Advisory Board of the Mixed Roots Foundation where he is Co-Director of the Global Adoptee Genealogy Project.
