#### Description:

**Review** "A thrilling debut packed with action and mystery. Aliens never looked so good."  
USA TODAY Bestselling author Jennifer L. Armentrout

"GRAVITY is a nonstop action thrill ride set in a richly imagined sci-fi version of earth, featuring a bold heroine who knows how to fight, just not who she should be fighting for. Start reading and you won't. Ever. Stop."

Jennifer Bosworth, author of Struck (FSG/Macmillan)

"Gravity will grasp readers tightly, with an ingenious storyline and sharp dialogue. West's extraterrestrials are unlike anything sci-fi fans have seen."

(*RT Book Reviews*, 4 1/2 star and Top Pick rating)

### **From the Book**

In the future, only one rule will matter:

Don't. Ever. Peek.

Seventeen-year-old Ari Alexander just broke that rule and saw the last person she expected hovering above her bed—arrogant Jackson Locke, the most popular boy in her school. She expects instant execution or some kind of freak alien punishment, but instead, Jackson issues a challenge: help him, or everyone on Earth will die.

Ari knows she should report him, but everything about Jackson makes her question what she's been taught about his kind. And against her instincts, she's falling for him. But Ari isn't just any girl, and Jackson wants more than her attention. She's a military legacy who's been trained by her father and exposed to war strategies and societal information no one can know—especially an alien spy, like Jackson. Giving Jackson the information he needs will betray her father and her country, but keeping silent will start a war.
