Description:

From Publishers Weekly In 1910, New York socialite Olivia Stewart resists an arranged, socially advantageous marriage, and the mysterious death of her sister Eleanor in Northern California is an unhappy but convenient excuse to go West to investigate. On the way, she is thrown off a Bay area ship and nearly drowned, so she has a number of reasons to hide her identity when she arrives in Mercy Falls, Calif. Her shipboard rescuer turns out to be her dead sister's fiancé Harrison Bennett, about whom she has suspicions. Harrison in turn has his reasons to distrust the Stewart family. In

this atmosphere of deceit and suspicion, attraction between Olivia and Harrison grows. Coble spins a tangled web in this third book in the Mercy Falls series (after *The Lightkeeper's Bride*), with red herrings and oodles of duplicity. Some complications (letters conveniently found) simply strain credibility, as does the revelation of the villain. Coble's fans won't mind that the plotting is a little loosely woven. (Apr.)

Coble's historical series (*The Lightkeeper's Daughter*; *The Lightkeeper's Bride*) just keeps getting better with each entry. Coble has a strong feel for the time period (in this case, 1910) and has scripted believable characters in suspenseful situations. Recommend the series to fans of T. Davis Bunn and Marta Perry. -- Library Journal

The Lightkeeper's Ball is a delightful historical romance mixed with healthy doses of both thriller and mystery. Several surprising twists in the plot sustain the tension and keep the momentum moving. Coble increases the feel of authenticity by weaving several historical events into her story, including the San Francisco earthquake and the passing of Halley's Comet. Readers who have already discovered the Mercy Falls series will also be delighted that several characters from the earlier books make cameo appearances. -- Historical Novels
