**Description:**

"Most people spend far more time in preparation for their vocation than they do in preparation for marriage," No wonder the divorce rate hovers around fifty percent.

Bestselling author and marriage counselor, Gary Chapman, hopes to change that with his newest

book. Gary, with more than 35 years of counseling couples, believes that divorce is the lack of preparation for marriage and the failure to learn the skills of working together as intimate teammates.

So he put together this practical little book, packed with wisdom and tips that will help many develop the loving, supportive and mutually beneficial marriage men and women long for. It's the type of information Gary himself wished he had before he got married.

This is not a book simply to be read. It is a book to be experienced. The material lends itself to heart-felt discussions by dating or engaged couples. To jump-start the exchanges, each short chapter includes insightful "Talking it Over" questions and suggestions. And, the book includes information on interactive websites as well as books that will enhance the couples experience.

Dr. Chapman even includes a thought-provoking appendix. By understanding and balancing the five key aspects of life, dating couples can experience a healthy dating relationship. A revealing learning exercise for dating couples is included at the end.
